Description

Full-Stack Developer with 3 years of experience building scalable web applications using JavaScript, React, Node.js, and MySQL. Passionate about continuous learning, I stay up-to-date with the latest web development trends.

Education

Platzi
Full Stack Developer with JavaScript
March 2024

- As a full-stack developer, I've completed a comprehensive program that covered the entire spectrum of web development. From the foundational languages of HTML, CSS, and JavaScript to advanced frameworks like React.js and Node.js, I've gained a solid understanding of both frontend and backend technologies. I've delved deep into state management, UI design, RESTful APIs, and PostgreSQL databases. Through hands-on projects, I've honed my ability to build scalable and robust web applications.

Fyr Lois
Adults 5 Level (B2)
November 2023

- Fyr Lois Level 5 is a comprehensive English course designed to enhance your language skills to a B2 level. You'll delve into advanced grammar, expand your vocabulary, and improve your reading, listening, speaking, and writing abilities. Through interactive activities, multimedia resources, and personalized guidance, you'll gain confidence in communicating effectively in a variety of real-world situations, explore diverse topics, and develop cultural understanding.
